

SYMPOSIUM ON ADVANCED BIOMATERIALS

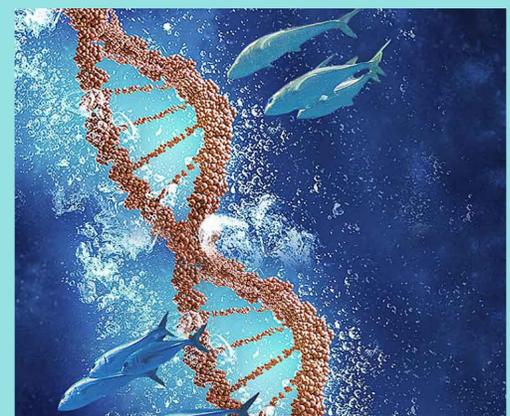

Main auditorium, School of Biotechnology, Portuguese Catholic University

27th May 2019

1

15h00 | Marine-derived collagen for wound healing and skin tissue regeneration

Bruno N. Mesquita, Inês V. Lopes,
Jorge C. Luís, Valentina Hrtonova

2

15h20 | Transdermal sweat-based glucose sensor

Beatriz C. Frias, Randy Quintus,
Rita G. Ferrinho

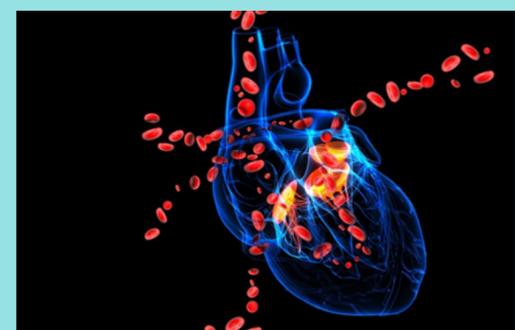

15h40 | Coffee Break

3

16h00 | Biomimetic design of an elastometric scaffold for heart valves tissue engineering

Daniela S. Paiva, Martina Kolajova,
Pedro R. Neto

4

16h20 | Overview of innovative biomaterial for pacemaker assemble

Joana C. Sá, Maria Teresa Botte,
Pedro B. Ribeiro
